

DID YOU KNOW??

March 2020

Our friend Jamison Scott, Executive Director, *New Haven Manufactures Association* sent out an email that we believe is extremely informative and well put together regarding COVID-19. Below are some links to the State of CT and Federal websites that answer a lot of questions.

State Resources

NEW State of CT Hotline -
866-500-2333 for questions and concerns

State of Connecticut Resources -
[Coronavirus Disease 2019 \(COVID-19\) Information](#)

State of Connecticut Department of Revenue Services (DRS) –
[Tax Filing Related Issues](#)

State of Connecticut Dept of Labor –
[FAQ for workers and employees](#)

Federal Resources

Small Business Administration -
[SBA Disaster Assistance in Response to the Coronavirus](#)

OSHA –
[Guidance on Preparing Workplaces for COVID-19](#)

There are many things we can incorporate into our own workplace. As employee safety is first and foremost in addition to social distancing, continue comprehensive cleaning and eliminate face to face meetings. Simple things such as keeping internal doors open when possible to eliminate the need to touch common surfaces. Some employers are adding shifts to spread out the workforce as well as staggering shift start times to eliminate shift overlap. We also understand there are supply chain issues and we are hearing of manufacturers partnering to share manufacturing resources and supplies.

We know all our employees and employers are concerned and we just want to touch on a few of those matters.
